

REQUEST FOR INFORMATION (RFI)

OCSD PROJECT 2026-02

CIPs A-3, A-4 & A-7 – SEWER SYSTEM UPGRADE PROJECT

1. RFI received September 9/29/2026:

- **RFI:** The plans on Belridge call for a 30 inch shoring box, is it possible to tie a 45 degree sewer lateral in a 30 inch shoring box?

- **RESPONSE:** This is a means and methods issue for the Contractor. The reference to a 30-inch shore box comes from the measure and pay description for the pavement rehabilitation on Belridge. The 30" trench width is stated as a way to define how the tonnage quantity was determined and not necessarily dictating the Contractors shoring.

2. RFI received September 30, 2026:

- **RFI:** "The Attachment To This Bid Proposal Form" lists forms number 8 Non-Lobbying Certification for Federal Aid Contracts and number 9 Disclosure of Lobbying Activities – are these required to be submitted with the bid package?

- **RESPONSE:** This project is not Federally funded and forms number 8 and number 9 are not required to be submitted.
