REQUEST FOR PROPOSALS – SANITARY SEWER CIP ENGINEERING & RELATED SERVICES

ADDENDUM #2 – POSTED 8/28/2024

1. Does the District have CCTV of the entire sanitary sewer system? If not, what portion(s) of the system has been videoed? What is the age of the existing CCTV inspections?

None up to date. We have VHS videos from the early 1990's. Part of the project is to develop an updated CCTV of the wastewater system.

1. Can the District provide a link to the Existing Infrastructure Atlas? Does this atlas include identified hotspots as shown in Appendix B of the Sewer System Management Plan 2020 Update?

Yes, see attached Atlas. The atlas does not include the hotspots but the SSMP includes the hotspots on page 43:

2. Does the District have record drawings of all portions of the sewer system? If not, approximately how much of the system do you have record drawings for?

Yes, see the atlas. This includes approximately 90% of the system.
